Live Animals Regulations
Updates & Next Steps

Andrea Gruber
Head, Special Cargo
IATA

04 March 2020 – ATA / Abu Dhabi
The International Air Transport Association (IATA)

Our mission is to represent, lead and serve the airline industry.

Founded in 1945

290 Commercial member airlines

82% Total air traffic
IATA has been established as a standard-setting organization.

The industry approaches IATA to help address their needs, to ensure compliance and quality in their services.
Cargo Services Conference (CSC)

Live Animals and Perishables Board (LAPB)

LAPB Advisory Group
(WAZA, OIE, ATA, USFWS, Aquatics Stewardship Council)

LAPB Care Team
(Industry experts e.g. vets)

Time & Temperature Working Group (TTWG)
A few important keywords that help us remembering the principles of animal transportation:

- Safety
- Trade
- Requirements & Regulations
- Competency
- Planning
- Welfare
- Liability
- Compliance
Live Animals Trainings

LAR new requirement (Section 1.4.1): Recurrent training must be provided within 36 months, effective 1st January 2020

Live Animals
Transportation
Classroom 3 days / Distance Learning

Live Animals Cargo
Logistics Management
Classroom 3 days
Ensuring Compliance - LAR46\textsuperscript{th} 2020 Updates

Chapter 1 Application of these Regulations

• Inclusion of a new statement in section 1.2 Shipper's Responsibilities related to wild caught or captive bred animals.
• Amendments to the section 1.4.1 regarding Live Animal Regulations recurrent training requirements.

Chapter 7 Documentation

• Amendments to the Shipper's Certification for Live Animals specifying if an animal is wild caught or captive bred

Chapter 6 Listing, Description and Sizes of Species

• Inclusion of new species (such as scallops) and common names for species (such as “sugar glider”, “Monkey (Non-Human Primates)” and “Ape (Non-Human Primates)”).
Ensuring Compliance - LAR46th 2020 Updates

Chapter 8 Container Requirements, amendments to:

• CR (1-3), CR 1 on general listed requirements and reinforcing also the feeding and watering requirements
• CR 2, 3, 11, 12, 13, 15, 16, 17
• CR19 complete review of the requirements on day-old-chicks
• CR 21, CR 31–34, 31, 32, 33, 34, CR 41–47, 41, 57, 67, 78

Chapter 10 Handling Procedures

• Amendments to section 10.3.1 General Loading Procedures.

An Addendum to the LAR 46th Edition 2020 will be issued shortly
CEIV Programs & Status of the Live Animals Certification
What is CEIV?

IATA CEIV Center of Excellence for Independent Validators
Established following a call-to-action to standardize processes, improve operations and enhance training in relation to the transport and handling of ‘special cargo’ shipments.
Industry Leverage of Quality & Excellence

Quality Programs

Security 2013

Pharma 2014

Live Animals 2018

Fresh 2019

IATA Standards
CEIV Live Animals & ATA Community
Transporting live animals by air is a complex and highly planned operation involving various stakeholders in the supply chain.

To ensure that animals always travel in safe, healthy and humane conditions as well as to meet customer expectations.
CEIV Live Animals
Certified Entities

Airline

Ground Handler
Community

- Contribute to standardization of processes and procedures throughout the air transport supply chain
- Benefit from partners’ knowledge and expertise through joint training
- Cost-efficient solution
CEIV Live Animals
ATA Community Participants

- Airpets (UK)
- Instone Air (UK)
- Intradco (UK)
- JCS Livestock (UK)
- Skyfast (Belgium)
- EHS (Belgium)
- Sky Partner Logistics (Russia)
- Air Animal (US)

---

**Detailed infrastructure and equipment information**
What are the benefits for Aviation Solution Providers?

▪ One-stop shop for all information related to IATA Certifications, Equipment, Infrastructure, Capabilities

▪ Be visible
  raise facility profile on global market

▪ Demonstrate competency
  showcase adherence to industry standards

▪ Attract new business
  easier matchmaking with new customers
Thank You!
