Notice Regarding NIH Plan to Transition from Use of USDA Class B Dogs to Other Legal Sources

Notice Number: NOT-OD-14-034

Key Dates
Release Date: December 17, 2013

Issued by
National Institutes of Health (NIH)

Implementation
NIH will fully implement a new policy prohibiting the procurement of dogs from Class B dealers using NIH grant funds beginning in FY 2015. All ongoing NIH-supported research in FY2014 involving dogs from any legal source may continue. FY 2015 noncompeting and competing awards issued on or after October 1, 2014 are prohibited from using NIH funds to procure or support the use of dogs from Class B dealers. Dogs used in NIH-supported research may only be from USDA Class A dealers or other approved legal sources. Any costs incurred in violation of this policy are unallowable and will be subject to a cost disallowance.

This is consistent with similar policy regarding the procurement of cats implemented in FY13 (NOT-OD-12-049), and constitutes full NIH implementation of the recommendation of the Institute for Laboratory Animal Research report Scientific and Humane Issues in the Use of Random Source Dogs and Cats in Research (2009) that states:
CHAPTER 10 PUBLIC NUISANCES SECTION 10.04 PUBLIC NUISANCES

(2) UNLICENSED SALE OF LIQUOR AND BEER. All places where intoxicating
liquor or fermented malt beverages are sold, possessed, stored, brewed,
bottled, manufactured or rectified without a permit or license as provided
for by this Municipal Code.
(3) CONTINUOUS VIOLATION OF VILLAGE ORDINANCES. Any place or
premises within the Village where Village ordinances or State laws relating
to public health, safety, peace, morals or welfare are openly, continuously,
repeatedly and intentionally violated.
(4) ILLEGAL DRINKING. Any place or premises resorted to for the purpose
of drinking intoxicating liquor or fermented malt beverages in violation of
State laws.

or dog outside the village to be used for any medical, surgical, or
chemical investigation, experiment, research, or demonstration.

medical, surgical or chemical investigation, experiment, research,

PETA Parrots for Half-Truths and Wait….What?!

- Boysko misinformed senate re: other state laws to ban breeding
- Not a ban on research with dogs. “We just don’t want them to breed dogs for research.” Marsden
- “This bill doesn’t ban testing. It bans offspring for use in future testing.” Boysko
- “We’re not trying to stop research for medical use.” Boysko
- “S***heads!” Stanley
There's no experiment cruel or worthless enough and no facility disgusting enough that the apologists for animal experimentation won't rush to defend the practice. Last year, PETA publicized conditions at a ramshackle beagle breeding facility in Cumberland, Virginia, previously owned by Covance and now owned by Envigo (formerly HLS). Confined with thousands of other dogs and forced to live in their own waste, sick and injured dogs suffered without veterinary care. Inches of feces were covered in mold. The concerns gained the attention of lawmakers who introduced commonsense measures to put controls on the business. The bill received unanimous approval from a subcommittee, but was pushed to the next session by the efforts of cowardly experimenters and their apologists who would rather ally themselves with the worst of the worst than give an inch to animal protectionists. That's fine. We'll see you next session, animal abusers, and then, we'll see you in hell.
