

**Lizanne Muller**  
**Vice President of Envigo Services**

Lizanne started her career in South Africa with a large multinational 3<sup>rd</sup> Party supply and logistics organization. In 1998 she emigrated to the UK, joining a Pharmaceutical API producer and successfully set up their global supply chain network. She spent 18 years there in a number of progressive roles, including Board member and Vice President of compliance and governance. In 2017, Lizanne joined Envigo as President of Operations EMEA, seeing through the transition with Covance. Now as Envigo's Vice President of Services, she is leading global teams across Biological Products, Diet Production, Model Generation, Health Monitoring, Surgery, Scientific Project Management and Transportation. Lizanne specializes in building effective cross-functional teams, designing and driving process improvement, strategic planning and change management
