Dear Valued Customers:

As you may be aware, TSA issued significant changes to the requirements for screening cargo being exported from the United States on an all-cargo aircraft. These changes will take effect on June 30, 2021 and require that all cargo being exported from the United States be subject to screening similar to what is required on passenger aircraft. Under these new guidelines, Atlas Air is responsible for ensuring full compliance. The costs to comply are substantial, and as a result we are introducing a Security and Screening surcharge as follows:

- Security surcharge - \$0.03 per kg., MIN \$5.00
- screening surcharge - \$0.07 per kg., MIN \$10.00
- Surcharges will be applied as due carrier based on chargeable weight

Note cargo that is already screened meeting all requirements and accompanied by IAC CCSF certificate and appropriate paper work will not be subject to the Screening surcharge. However, all cargo will be subject to the Security surcharge.

Unfortunately, with these changes we anticipate some delays with cargo acceptance. To assist with managing expected congestion we will only be receiving cargo 24 hours prior to departure with the following cut offs:

- Cut off Time (EZE/SCL/VCP/MAO/UIO) 08:00PM Local Time
- Cut off Time (BOG) 05:00PM Local Time

Please be sure to coordinate with your Sales Representative to avoid any disruptions in service. We thank you for your continued support.
