MESSAGE FROM ATA PRESIDENT

Hoping all our ATA members are thriving this 2021!

As the world continues to navigate the ongoing COVID-19 pandemic likely to continue throughout this entire calendar year, limited vaccination schedule and the continuing changes in travel restrictions by companies as well as governments, the ATA Board of Directors has decided unanimously to postpone the October 2021 Mexico meeting to the spring timeframe in 2022. We feel the extra 6-months would allow more time for vaccinations and the potential ease in travel restrictions or at least to have more clear policies regarding international travel by most countries by then.

In place of the in-person meeting this year, the Planning Committee will be scheduling webinars as well as a 2 – 3 virtual event May 18 - 20 which will highlight species committees with speakers and presentations. Stay tuned for more details.

We hope you will join us in Mexico in 2022.

Alberto Torres
ATA President

WEBINAR SERIES: AIR TRANSPORT OF BRACHYCEPHALIC PETS

Online ZOOM webinar open and FREE registration to all. Please feel free to circulate this invitation to your colleagues and other interested parties.

Thursday, April 1, 2021

90 minutes webinar with approx. last 15-20 minutes Q&A

5:00 pm CET; 11:00 am UTC-4

Globally, thousands of pets are shipped annually by air. To ensure successful transport for the special needs of the brachiocephalic pet, this webinar will review the health and welfare of travel, best practices and regulation in flight and other recommendations for transporting these pets. FVE, FECAVA and ATA has invited specialists in those fields to discuss different aspects of animal safety and welfare in air transport.

Presenters:

Monique Megens of Monique Megens Consulting
Carlein vanDer Beek of PetAir
Jeff Segers of IFA Skyfast

SPACE IS LIMITED –
so don't delay in registering!

As global transports resume, ATA posts updated articles pertaining to the animal transport community from members, government agencies and other affiliate organizations under the [NEWS page](#).
